Divine Child International School

- ## Challenge :

  Precisely maintain day to day activities in minimum time and measure progress of student and their staff over the various academic years. And Reduce usage of papers.

- ## Solution :

  We have provided them our School Management system which Web portal and Mobile Application. Using which they can easily maintain lots of routine things like Student and Staff Attendance, Student Examination, Student Homework, Transportation, Canteen & Hostel details, Assignment, Fees Collection, Library details, Parent Teacher meeting details, Visitors details etc. Now they can easily keep track of things digitally which reduce their paper usage and also the things are available on fingertip with very less effort.

- ## Results :

  With our solution they are able to save their paper cost up to 90 to 95%. They can easily communicate with their parents though the mobile app and notifications now their aim is to create paper less school. We strongly admire their thoughts and trying to provide more digitalized feature to help them to achieve their Goal.
